

Cllr David McGlone Profile:

I have lived in Southend since 1984 and like many Southenders have seen tremendous changes in that time. None more than those seen on 2 of our vital transport links , namely, the A127 (Arterial Road) and the Airport. With the 4 improved junctions (Kent Elms, Tesco roundabout, Cuckoo Corner and the latest developments at the Bell junction) all situated within St Laurence Ward , as indeed the Airport is, I take a keen interest in the affects that changes to these important locations have on our Ward residents.

While I focus on the huge infrastructure issues (road, housing and economic wellbeing or our town) that are vital to the success of Southend, many other issues such as the environment (green and open spaces), crime reduction (more police and public protection) and supporting local businesses are always at the forefront of my priorities as a Conservative representative.

I regularly support the Trust Links charity in their efforts to connect nature with mental health issues by attending events at the ancient orchard in St Laurence Way.
